Onsen Nyanko Origami

The origami (origami), the play of Japan tradition by folding the paper make a form, such as plants and animals and living tool. In addition, work itself and that raised folded, and I refer to that of special paper square made for origami. The exact history and origin is not clear, but is said to Japan of the Heian period was present, it is seems to have made its own development.

In recent years re-evaluated artistic aspects of origami, old in the produced complex excellent piece was not, in addition to folding to tradition in each country, but also continue to be devised new folding.

Also, the geometric nature of origami, and has been studied as a branch of mathematics.
